Child Policies

Support the Government in designing mid-, long-term and yearly strategies for effective implementation of child policies

- Support the development of child policies
- Analyze and assess impacts of child policies
- Conduct a target-oriented research on child policies
- Build an integrated database

Child Care & Protection

Strengthen a public system for child protection in the areas of child care, child abuse and adoption

- Support the operation of child care centers in cooperation with schools and regional communities
- Protect abused children and support finding missing children
- Offer adoption and post-adoption services
- Promote and strengthen alternative care
- Support self-reliance of children

Child Rights

Create a culture which recognizes children as individual human beings and ensures the exercise of their rights

- Support children to learn and exercise their rights based on voluntary participation
- Implement the UN Convention on the Rights of the Child
- Engage with global partners to promote child rights

We support the Government in designing strategies and operating related committees for effective implementation of child policies.

For Government

For Children

We strive to create a culture which children know their rights, organize play activities and grow up in a safe environment as responsible adults.

We provide standardized work manual and customized educational programs to increase expertise of persons working with and for children.

For Child Welfare Workers

For General Public

We aim to raise public awareness on the importance of child rights and protection through a range of projects. We also operate a window of communication on our website.

A Society Where All Child is Safe and Happy

The NCRC is committed to leading inclusive and innovative growth based on our expertise and dedication to uphold child-centered values
